SEO (Search Engine Optimization)

We Provide site publicity (Search Engine Optimization) to major web search engine google, bing, yahoo, Facebook twitter YouTube etc and minor update. (First three month with free of cost).

Your responsibilities:

This project requires some involvement by you, the client. To help achieve a smooth and successful implementation of your web site, it will be your responsibility to:

- A. Obtain a domain name and web hosting service, unless you instruct me to obtain them for you.
- B. Provide some text, Logo and any other graphic images.
- C. Be available for email or phone consultation to answer question.

Development Cost:

-Site design and Development Cost NRS. 30,000 (including 1 GB hosting and .com Domain Name)

***Note:** Fee is due and payable when the web site has been constructed according to your specifications. One half shall be paid upon approve of the contract and all remaining fees shall be paid upon completion of the project.*

Support:

We will continue to support if there is any problem in the system or if you need any support for training. Our annual support does include addition of new features in the websites. If there are minor adjustments in the existing features then it will be covered in the annual support itself. However, if there is any new functionality to be developed then we can determine the cost after discussion.

Development Time:

-Within 40 working days.

Note: We will provide Sample web page up on your request.

I appreciate the opportunity to provide this proposal and look forward to working with you.

Thank you
